**GBank Financial Holdings Inc. Announces Bank of George Ranks #6 in S&P Global Market Intelligence's 2021 Ranking of the Best-Performing U.S. Community Banks Under \$3 Billion in Assets**

LAS VEGAS, NV, March 24, 2022 – GBank Financial Holdings Inc. ("GBank" or the "Company") (OTCQX: GBFH), the parent company for [Bank of George](#) (the "Bank"), today announced an industry report ranking them the 6<sup>th</sup> best-performing U.S. community bank under \$3 billion in assets.

S&P Global Market Intelligence just released its ranking of the Best-Performing Community Banks and Credit Unions for 2021. Top-performing community banks were ranked in two categories: banks \$3B - \$10B in assets and banks less than \$3B in assets. The full press release can be found [here](#).

"The Bank's 6<sup>th</sup> place position puts us in the top 100 for the sixth consecutive year. Out of 4,015 banks under \$3B in assets, this places us firmly in the top 1% of our peer bank group, a testament to our continued spirit of innovation and dedication to providing the best solutions for our customers," stated T. Ryan Sullivan, President/CEO of Bank of George.

S&P Global Market Intelligence is a division of S&P Global (NYSE: SPGI). According to its [website](#), it is a world-leading provider of financial information services, and its data and analytics uncover insights from an unrivaled breadth and depth that won't be found anywhere else: from comprehensive fundamentals to sector-specific performance metrics, M&A to credit risk, plus insightful news, forecasts, and analytics.

To compile the ranking, S&P Global Market Intelligence calculated scores for each company based on six metrics: pre-tax return on tangible common equity; efficiency ratio; operating revenue growth; net charge-offs to average loans and leases net of Payment Protection Program ("PPP") loans ratio; nonperforming assets and loans 90 days or more past due as a percentage of total assets, net of PPP loans; and leverage ratio. Each company's standard deviation from the industry mean was calculated for every ranking metric, weighted, then combined to derive a performance score. To help normalize the data and mitigate the impact of outliers, caps and floors were applied for each metric.
